

Global Business Meeting

Hand Held Products asked us to propose a destination for and event manage an annual business meeting with 100 guests from 14 separate global departure points

We provided a wide choice of well connected European destinations for the 3 day event. A full social programme including a dine around evening, sightseeing and a gala dinner was included.

The meeting was held at the 5*Don Carlos Hotel in Marbella and we used our online guest registration programme to help handle the complex logistics of this event. We also created and managed all of the production and meeting content as well as the ground programme
