

Global Partner Conference

Every two years King Sturge, a leading global commercial property consultancy, hold a global partner meeting. They required a destination for a 4 day meeting with over 550 guests from a wide range of departure points

We investigated a range of European destinations and presented options which resulted in King Sturge selecting Vilamoura in Portugal

We managed the entire project including guest registrations, travel itineraries and flights, sightseeing and dining arrangements and a golf tournament. We also created the production elements for the 3 day conference
